

Harvard Puzzle "Who's in Charge?"

Instructions: Guess the words defined by the cryptic clues (answers vary in length from four to eleven letters, one is foreign, and four are capitalized) then enter them in the grid one after another in the same order as their clues, starting in the upper left corner. Across words that don't end at the right continue on the next row, and down words that don't end at the bottom continue in the next column. Nine across words and ten down words won't fit in the grid unless one of their letters is removed. Those nineteen letters, taken in order in across and down words, spell a three-word phrase related to the puzzle's title and mystery entry.
