## Harvard Puzzle "ART at Harvard"

**Instructions:** Guess the words defined by the cryptic clues (words vary in length from four to twelve letters, and five of them are capitalized) then enter them in the grid one after another in the same order as their clues, starting in the upper left corner. Across words that don't end at the right continue on the next row, and down words that don't end at the bottom continue in the next column. Twelve across words and twelve down words won't fit in the grid unless one of their letters is removed. Those twenty-four letters, taken in order, spell a three-word phrase related to the title of the puzzle. Thanks to Kevin Wald '93 for test-solving and editing this puzzle.
